

iSaveFL

OVERVIEW

iSaveFL engages Floridians in the fight against opioids by providing organizations **FREE** naloxone kits, resources, and education to prevent fatal overdoses. Individuals can access these kits through participating organizations in their community.

WHAT IS NALOXONE?

Naloxone is a medication that can help prevent a fatal opioid overdose. Naloxone is a nasal spray and does not cause harm to a person if they are not overdosing.

WHAT IS AN OPIOID?

Opioids are a category of drugs that include synthetic opioids, such as fentanyl; pain relievers available legally by prescription, such as oxycodone, hydrocodone, codeine, morphine; illegal heroine; and many others.

HOW TO GET INVOLVED:

GIVE NALOXONE. PROTECT FLORIDIANS.

The iSaveFL program encourages organizations to sign up and give free naloxone kits to people in Florida who are at risk of witnessing or experiencing an overdose. The program also provides free educational resources about naloxone and overdose prevention.

Visit **iSaveFL.com** to download these materials.

GET NALOXONE, AND SAVE A LIFE.

Floridians can help prevent a fatal opioid overdose. Free naloxone can be obtained from distributors in communities throughout Florida.

Find locations with free kits at **iSaveFL.com/Find-Naloxone**.
